USB STICKS

Quality is our top priority. We produce thousands of products every day, all custom made according to wishes of our customers. That is no less true for our USB's.

We have a wide range of USB sticks and hard drives from several premium brands. A USB stick with a print, engraving or a completely personalised hard drive, we deliver it all.

• High resolution full colour print, also available with a luxurious doming.
• Standard USB models or design your own form. Possible in every shape and size
• USB sticks are available with a capacity up to 256 GB
• Minimum order quantity of 25 pieces

DOMING

Many of our products can be personalised with so called doming. A unique combination of a sharp full-colour print and transparent PU-layer (polyurethane) upgrades the product to a different level and gives a high-end look.
